Job Description:

We are looking for a highly skilled **Senior Developer** with expertise in **Next.js, Node.js, software architecture, and project management**. The ideal candidate should have a strong technical background, hands-on experience in full-stack development, and the ability to lead projects efficiently.

Key Responsibilities:

- **Software Architecture & Design:** Develop and implement scalable, high-performance software architectures.
- **Development & Coding:** Write clean, efficient, and maintainable code using **Next.js, Node.js**, and related technologies.
- **Project Management:** Oversee project planning, execution, and delivery while ensuring deadlines and quality standards are met.
- **Team Leadership:** Mentor junior developers, conduct code reviews, and foster a collaborative development environment.
- **Problem-Solving:** Identify technical challenges and implement innovative solutions to optimize performance and scalability.
- **Collaboration:** Work closely with designers, developers, and stakeholders to translate business requirements into technical solutions.
- **Security & Performance Optimization:** Ensure applications are secure, high-performing, and optimized for scalability.
- **Code Review & Best Practices:** Establish and enforce best coding practices, documentation standards, and agile methodologies.

Required Skills & Qualifications:

- **Strong expertise in Next.js & Node.js** (2+ years of hands-on experience).
- Experience with **TypeScript, React, Express.js, RESTful APIs, and GraphQL**.
- Proficiency in **Software Architecture & Design Patterns**.
- Experience in **Agile/Scrum project management**.
- Hands-on experience with **databases** (SQL & NoSQL – PostgreSQL, MongoDB, etc.).
- Knowledge of **DevOps, CI/CD pipelines, Docker, and cloud services** (AWS, GCP, or Azure) is a plus.
- Strong analytical and problem-solving skills.
- Excellent communication and leadership abilities.

Preferred Qualifications:

- Experience in **Microservices Architecture**.
- Knowledge of **Headless CMS, Serverless Frameworks, and API Gateways**.
- Familiarity with **performance optimization techniques** for frontend and backend.

Education & Experience:

- Bachelor's/master's degree in computer science, Engineering, or a related field.
- 2+ years of experience in **full-stack development** with a focus on Next.js and Node.js.

What We Offer:

- Competitive salary and benefits.
- Career growth and leadership opportunities.
- Exposure to cutting-edge technologies and innovative projects.
